

## **#1180 - Eddy Current Lead Technician**

### **The Company**

IRISNDT Corp. ("IRISNDT") is a world leader in nondestructive testing ("NDT"), servicing Canada, the USA, and the United Kingdom, providing specialized NDT and inspection services, materials engineering, heat treatment, rope access and bolting services.

Since 1953, the Company has been servicing the oil & gas, petroleum and petrochemical, chemical, power generation, and pipeline industries. A growing organization with a great demand for their services in the market, the Company employs over 1200 staff in Canada, the USA, and the U.K. For additional information, please visit [www.irisndt.com](http://www.irisndt.com).

### **Job Description:**

IRISNDT has a permanent, full-time position open in our Advanced Services Department for an Eddy Current Lead Technician. This position would be based out of our Edmonton office (5311 86 Street NW, Edmonton, T6E 5T8), with travel throughout Alberta required.

Job duties:

- Performance of tube and surface eddy current inspections as required.
- Job planning and quoting.
- Mentorship to junior technicians.

Compensation commensurate with certifications held and experience. Successful candidates will be required to join a union affiliated with the QCCC. All applicable benefits as per the union agreement would be available to the successful candidates.

### **Required Skills and Experience:**

The successful candidates will, as a minimum, have the following certifications and experience:

- Fully certified to CGSB Level 2 in ET;
- Experience with RFT, NFA, and IRIS tube inspection;
- Experience with Eddy Current surface inspection;
- Additional CGSB Certifications (Level 1 or 2 in UT; Level 2 in MT and/or PT) would be considered an asset;
- 5+ years NDT experience; and
- Proficiency in MS Word and MS Excel.

For additional information or to submit applications electronically, please email [recruitment@irisndt.com](mailto:recruitment@irisndt.com). Resumes without direct reference to the specific role will not be considered, and applicants not being considered will not be contacted.
